

## ASSIGNMENT SUBMISSION FOR ART 203

# Assignment Task Evaluation Rubric

| Criteria                                              | Excellent (100-80)%                                                                                                                              | Proficient (80-60)%                                                                     | Limited (60-40)%                                                               | Insufficient (40-0)%                                                                 | Marks |
|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|-------|
| <b>Paper Selection &amp; Coverage (20 marks)</b>      | 5 highly relevant, recent ( $\leq 5$ years), high-quality papers from reputable venues; clear justification for selection                        | 5 relevant papers with minor gaps in relevance or venue quality; adequate justification | 5 papers selected but some lack relevance or are outdated; weak justification  | Fewer than 5 papers, or papers are irrelevant/poor quality; no justification         |       |
| <b>Contents Understanding (15 marks)</b>              | Demonstrates deep & clear understanding of methods, findings, and contributions                                                                  | Shows good understanding with minor gaps                                                | Understanding is partial                                                       | Poor understanding evident                                                           |       |
| <b>Gap Identification (20 marks)</b>                  | 3+ specific, well-articulated research gaps clearly derived from comparing papers; gaps are significant and actionable                           | 2–3 gaps identified with reasonable clarity; mostly derived from paper comparison       | 1–2 vague or generic gaps; weak connection to reviewed papers                  | Gaps are missing, trivial, or not based on the literature reviewed                   |       |
| <b>Critical Discussion &amp; Synthesis (20 marks)</b> | Insightful critical analysis comparing methods, strengths, weaknesses; synthesizes papers into coherent narrative; original perspectives offered | Good critical analysis with some comparison; synthesizes most papers adequately         | Limited critical analysis; mostly descriptive summaries with minimal synthesis | No critical analysis; merely lists paper summaries without synthesis                 |       |
| <b>Oral Performance during Submission (25 marks)</b>  | Confidently explains all aspects of the report; answers questions accurately and insightfully; demonstrates ownership of the work                | Explains report well; answers most questions correctly; shows good understanding        | Struggles to explain some parts; answers are incomplete or partially incorrect | Unable to explain report; cannot answer basic questions; suggests lack of authorship |       |
|                                                       |                                                                                                                                                  |                                                                                         |                                                                                | <b>Total</b>                                                                         |       |
